# FIHAN

## Your product. In motion.

AI-directed website walkthroughs. Built to show what matters.

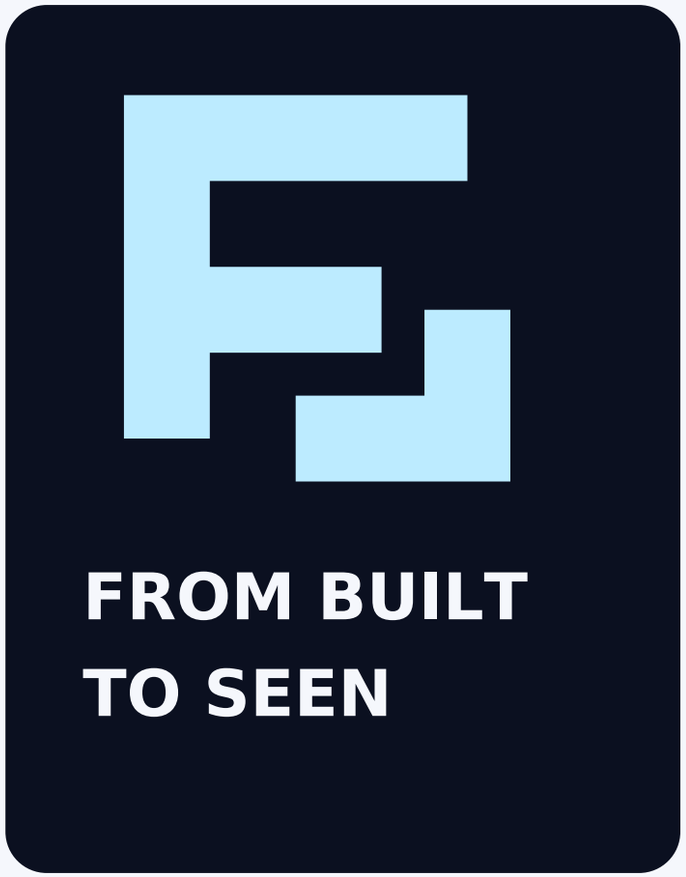

SHOW THE WORK.

# Good work deserves a clear demo.

FIHAN is an AI product that explores websites and turns meaningful actions into guided demos for developers, freelancers and software teams.

PURPOSE

Make digital work easier to show and understand.

AUDIENCE

People who build, sell or explain software.

PROMISE

Show the important steps. Make the value visible.

# Evidence has presence.

FIHAN brings agent intelligence to product demonstrations: planning a route, showing real interactions and shaping the result into a clear, shareable story.

## Clear

Explain the action. Let people follow.

## Assured

State the result without the hype.

## Expressive

Use scale, contrast and timing.

PRIMARY LINE

**Show the work.**

# One name. A recognisable signature.

The horizontal signature pairs the Reveal emblem with a custom geometric wordmark. The open forms connect the identity to windows, focus and forward movement.

PRIMARY LOCKUP

Use on headers, demo covers, proposals and product credits.

# The Reveal emblem.

STANDALONE / APP / WATERMARK

An F and an open corner share a square grid. The gap creates a visual opening: the moment the work comes into view.

# Built as a shape, not typed as a label.

The wordmark uses custom vector letterforms: square shoulders, compact spacing and a triangular A. Keep all five letters together. Always spell the public brand FIHAN.

OUTLINED SVG

No font required for the logo.

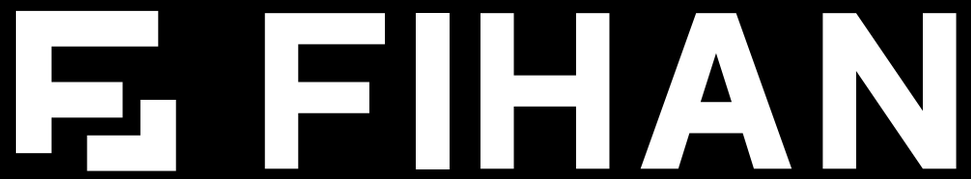

# The same identity, in every setting.

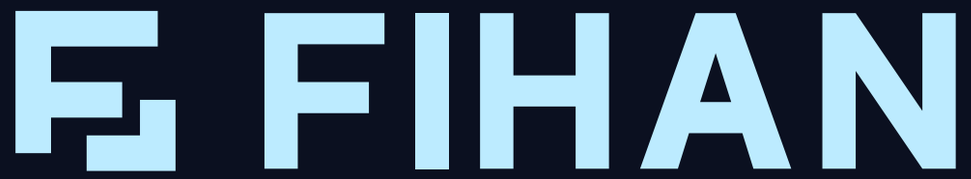

01 / PRIMARY

02 / SIGNATURE BLUE

03 / ONE COLOUR

04 / ICE ON NAVY

# Use the right signature for the space.

STACKED / COVERS

APP ICON / AVATAR

REVERSED ICON

Use the emblem alone below 120 px of available width. Keep the full wordmark off favicons.

# Deep focus. A flash of visibility.

**SIGNAL BLUE**

#4D6BFF

**MIDNIGHT**

#0B1020

**ICE**

#BCEBFF

**CLOUD**

#F5F7FC

Signal Blue owns the identity. Midnight gives the product depth. Ice marks focus and guidance. Cloud keeps reading and editing surfaces calm. Keep the flat logo free of glow.

STARTING RATIO: MIDNIGHT 45% / CLOUD 30% / SIGNAL BLUE 20% / ICE 5%

# Legibility is part of the identity.

**Show the work.**

Ice on Midnight / 14.84:1

**Show the work.**

Midnight on Ice / 14.84:1

**Show the work.**

Midnight on Cloud / 17.66:1

**Show the work.**

White on Signal Blue / 4.32:1

The first three pairs support body text. White on Signal Blue is reserved for large text and icons; use Action Blue #3D56DB with white or Midnight on Ice for compact buttons. Never set Ice text on Cloud.

# A strong headline. An easy read.

## DejaVu Sans

Aa Bb Cc 0123456789

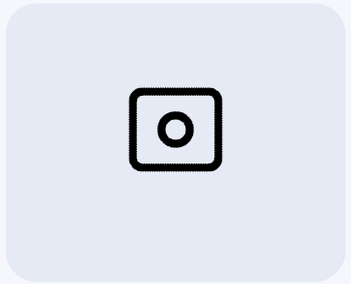

Use Bold for headlines and Regular for body copy. Use DejaVu Sans Mono for durations, step numbers and small technical labels.

TYPE SCALE / WEB

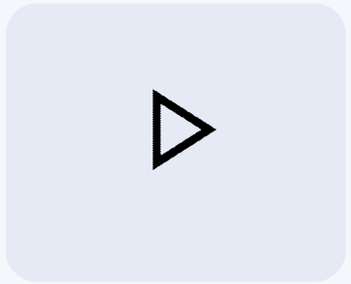

| | |
|---|---|
| Hero | 64 / 68 |
| Section | 40 / 46 |
| Body | 18 / 28 |
| Label | 12 / 16 |

Mobile: hero 40/44, section 28/34, body 16/26. Sentence case. Left aligned. Avoid wide tracking on paragraphs. Font files and licence are included.

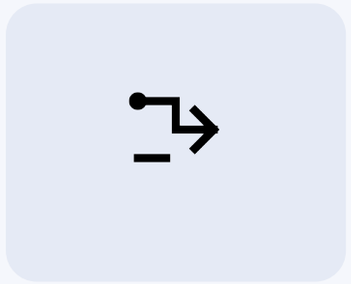

# Twelve icons. One visual language.

24 x 24 grid. 1.75 px strokes. Square caps and crisp joins. Use at 24, 32 or 48 px; keep the stroke proportional. All icons inherit currentColor and include an SVG sprite.

# Frame the action.

Use real interface captures as the hero. One frame, one action, one clear reason to watch. Give the software enough space to be understood.

## The Reveal frame

Crop corners echo the emblem. Use them around a meaningful action, never as a border on every element.

8 PX BASE GRID / 48 PX DESKTOP GUTTERS / 24 PX MOBILE GUTTERS

# Sound like someone who knows the work.

FIHAN

## Your product.
## In motion.

AI-directed website walkthroughs that show what matters.

Create a walkthrough

LANDING PAGE / CONCEPT

FIHAN

## BUILT IT?
## SHOW IT.

SOCIAL COVER / CONCEPT

# Reveal. Focus. Resolve.

01 / REVEAL

Open the frame over 420 ms. Reveal the interface inside it.

02 / FOCUS

Move toward one meaningful action. Show the cursor and the click.

03 / RESOLVE

Hold the result long enough to read. End on the FIHAN signature.

Use ease-out motion and 160 ms hover transitions. Respect reduced-motion settings with static reveals. Avoid constant zooming, flashing and decorative cursor movement.

# Keep the signature intact.

1x

x = one emblem bar. Keep at least 1x clear space around all sides.

MINIMUM SIZE

Horizontal: 120 px wide. Wordmark: 96 px. Emblem: 16 px.

PRESERVE

Use supplied proportions. Keep clear space. Use approved colour pairs.

AVOID

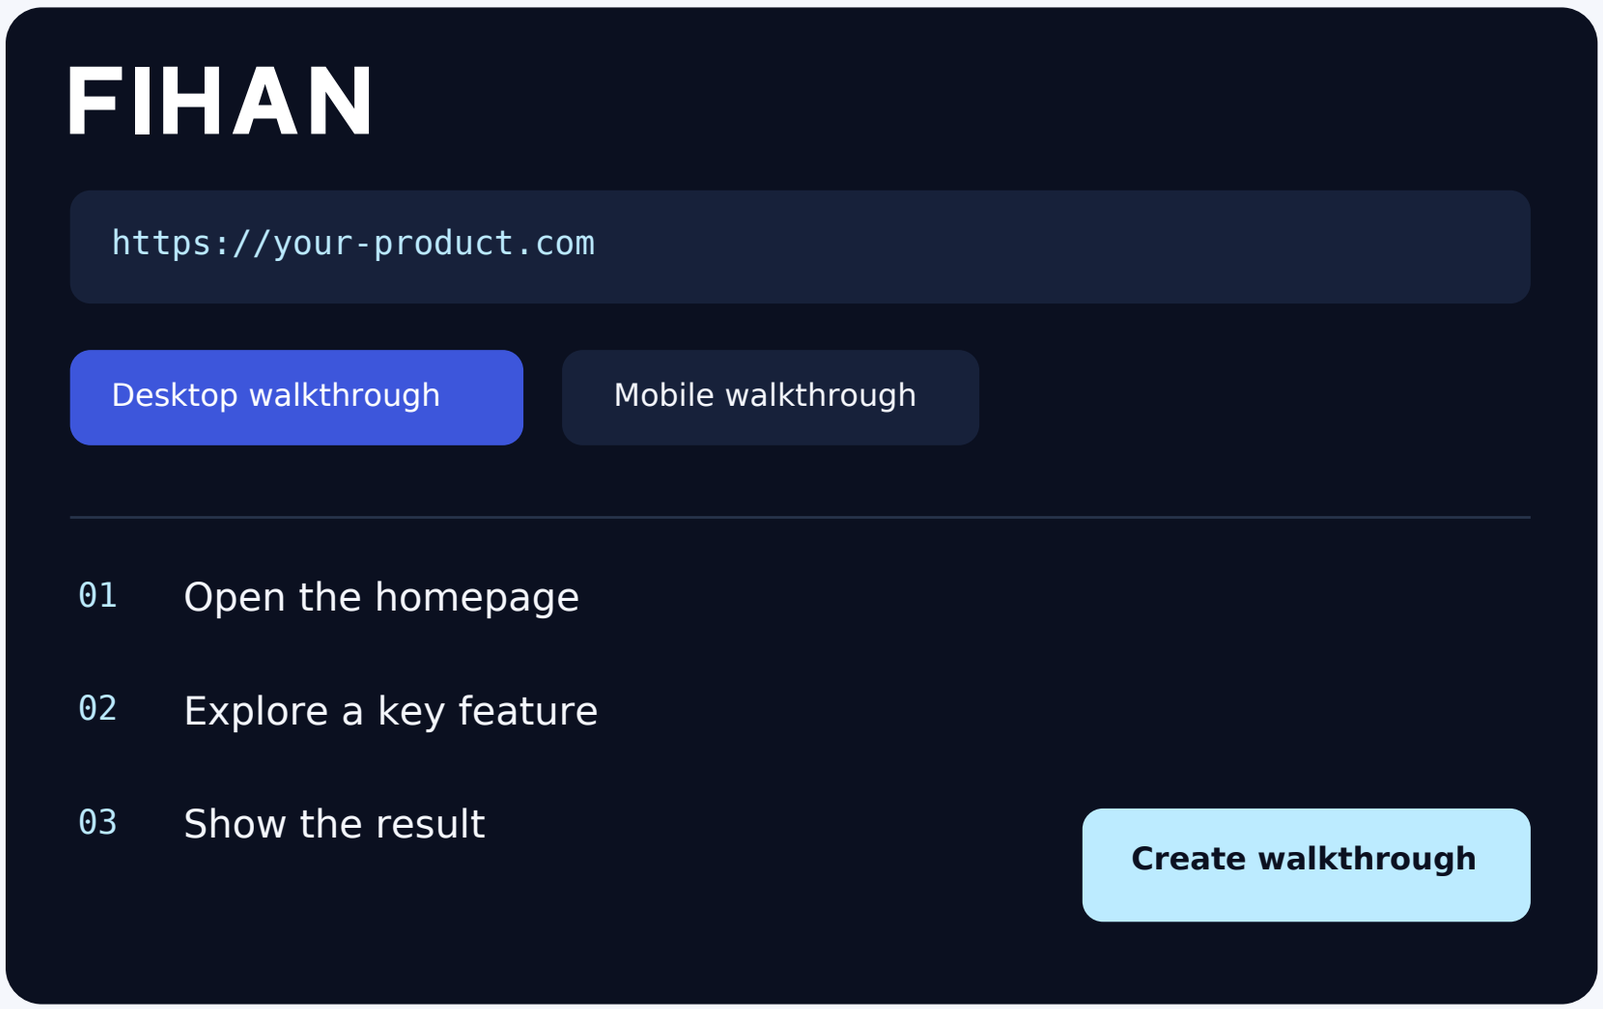

No stretching, outlines, shadows, rotation or new letter spacing.

# One link. A purposeful walkthrough.

Make the intelligence visible through the route, the cursor and the finished result. Every interaction should earn its place in the demo.

| | | |
|---|---|---|
| 01 | DIRECT | A URL, a goal and a desktop or mobile viewport. |
| 02 | EXPLORE | The agent follows a route and shows meaningful clicks. |
| 03 | SHAPE | Review chapters, narration, focus and timing. |
| 04 | DELIVER | A shareable walkthrough, MP4 or documentation. |

# Intelligence, expressed through clarity.

## A visible plan.

Show the route before capture. Use short action labels, explicit viewport controls and a clear next step.

Interface concept. Capabilities and states require product validation.

# A kit ready to use.

| | |
|---|---|
| IDENTITY | 20 outlined logo variants, an app icon and a favicon. |
| PRODUCT | 12 individual SVG icons and a reusable sprite. |
| APPLICATIONS | Editable social cover and demo thumbnail, with PNG exports. |
| IMPLEMENTATION | CSS and JSON colour tokens, font files and usage guidance. |

Brand system v2.0 / Prepared for FIHAN. Product mockups illustrate the identity; they do not certify implemented features. Final name and mark clearance is outside this design kit.
