MORIELA

QUALITY, TAILORED TO YOU

A COMPLETE BRAND IDENTITY

Modern African femininity
meets understated luxury.

CREATIVE DIRECTION • VISUAL IDENTITY • PACKAGING • DIGITAL DESIGN

Brand concept and production guide • Version 1.0 • October 2026

01 | Brand foundations

MORIELA is a Nigerian women’s wear and tailoring brand built around thoughtful craftsmanship, refined femininity, modest style and quality finishing. The identity should feel premium without feeling distant or inaccessible.

Brand purpose

Help women feel confident and beautifully dressed through considered design, careful tailoring and a consistent customer experience.

Brand promise

Every interaction—from the first enquiry to the final garment—should feel clear, caring, reliable and intentional.

Personality

ELEGANT	WARM	CONFIDENT	CRAFT-LED
Polished, never fussy.	Welcoming and human.	Clear, not boastful.	Quality in the details.

Core audiences

• Women seeking custom-fitted outfits and alterations.
• Customers who value modest, elegant everyday and occasion wear.
• Ready-to-wear shoppers looking for well-finished pieces.
• Customers preparing for Eid, celebrations, work and special events.

Positioning statement

For women who want to dress with confidence, MORIELA offers thoughtfully tailored women’s wear that balances elegance, modesty and quality craftsmanship.

02 | Logo system

The logo should be simple enough to reproduce on a small woven label and distinctive enough to anchor social media, packaging and signage. Treat the current concept as a direction for final artwork, not as a finished vector logo.

Primary logo

MORIELA

QUALITY, TAILORED TO YOU

Recommended logo family

Wordmark MORIELA in a high-contrast serif. Use on website headers, cards and packaging.	**Monogram** A custom M mark for profile icons, buttons, seals and compact placements.
Compact mark Wordmark without tagline for narrow spaces and garment labels.	**One-colour mark** Single espresso, black, ivory or white version for practical printing.

Clear space and minimum size

Keep clear space around the logo equal to the height of the letter M. Do not crowd it with text, borders or imagery. As a starting point, avoid printing the full logo below 28 mm wide; use the compact mark or monogram at smaller sizes and test legibility on the actual material.

Avoid

Do not stretch or skew the logo, add unapproved shadows, change letter spacing casually, place gold on a low-contrast background, or add sewing icons to every version. Keep the needle/thread motif subtle.

03 | Colour palette

The palette is designed to feel tactile, warm and sophisticated. Use neutral colours as the foundation and accents sparingly so the brand remains recognisable.

Espresso Brown
#382416

Primary brand colour • logo, text, packaging

Warm Beige
#EADCC8

Supporting neutral • cards, backgrounds

Ivory
#FAF9F6

Primary light background • web and print

Gold
#D4AF37

Accent • foil, dividers, tiny highlights

Olive Green
#55623B

Collection accent • modestwear campaigns

Dusty Mauve
#C79BA7

Soft seasonal accent • feminine campaigns

Colour proportions

60%	30%	10%
Ivory / beige backgrounds	Espresso text and core identity	Gold or seasonal accent

Accessibility and production notes

Use espresso or charcoal text on light backgrounds for readability. Gold is an accent, not a body-text colour on ivory. Screens display colours differently from fabric and print; request a physical proof before ordering packaging or labels. For printing, ask your supplier to convert these HEX references to suitable CMYK or spot-colour values.

04 | Typography

Use no more than three type families in everyday communications. Consistent hierarchy is more important than decorative variety.

ROLE	TYPEFACE	USE
Logo / headlines	**Playfair Display**	Collection titles, campaign headlines, elegant editorial moments.
Subheadings / UI	**Montserrat**	Navigation, section headings, buttons and short labels.
Body / captions	**Poppins**	Descriptions, social captions, ordering details and price lists.

Hierarchy rules

• Headline: short, expressive and high contrast.
• Subheading: concise, usually sentence case or small caps.
• Body: comfortable size and line spacing; avoid long all-caps text.
• Prices and order instructions: clear and easy to scan.
• Script fonts: optional accent only, never the main information font.

Sample campaign copy

“A thoughtful fit. A beautiful finish.”

New collection • Custom tailoring • Ready-to-wear • Alterations

05 | Photography and graphic language

MORIELA imagery should show the garment, the fit and the details. Aim for natural confidence rather than overly posed luxury clichés.

Photography direction

• Use soft natural light and warm, true-to-fabric colour.
• Show full-length looks, useful detail shots and close-ups of finishing.
• Feature a range of modest silhouettes, textures and occasions.
• Keep backgrounds simple: ivory walls, warm wood, neutral studio spaces or real-life settings.
• Photograph finished garments on real customers or models with clear consent.
• Avoid heavy filters that distort fabric colour or skin tone.

Graphic motifs

Thread / needle Signals craft. Use sparingly in dividers or small brand details.	**Stitch line** A fine line can separate sections or frame a card.
Fabric texture Use subtle textile photography as a background, not behind dense text.	**Monogram seal** Use the M mark on tags, stickers and packaging closures.

Visual balance

Give each design breathing room. Use one main message, one main image and one clear action. Do not put every brand colour, motif and font into every post.

06 | Packaging and print applications

Packaging is part of the customer experience. It should protect the garment, present it neatly and make the brand easy to remember without adding unnecessary cost.

ITEM	DESIGN DIRECTION	PRACTICAL NOTE
Shopping bag	Ivory bag, espresso wordmark, dark handles; gold detail optional.	Choose a size that suits your most common orders.
Garment bag	Espresso or beige with a compact logo.	Prioritise garment protection and reusable quality.
Hang tag	Ivory stock, monogram on front, care / contact details on reverse.	Leave space for size or order code if needed.
Thank-you card	Warm note, simple logo and social handle.	Keep the message personal and easy to read.
Woven label	One-colour wordmark or M monogram.	Test small type with the label manufacturer.
Tissue / seal	Ivory tissue with small repeating M motif; espresso sticker.	Use the repeat pattern subtly to avoid visual clutter.

Suggested thank-you message

“Thank you for choosing MORIELA. Your support means so much to our small business. We hope you feel confident, comfortable and beautifully yourself in your piece.”

Print-ready checklist

Confirm final logo artwork, exact dimensions, material, bleed, safe margins, colour proof and supplier specifications before production. Mockups are not a substitute for print-ready files.

07 | Social media and content system

Build a recognisable feed through repeatable layouts rather than designing every post from scratch. Keep the same palette, typography and logo placement across Instagram, Facebook and WhatsApp Business.

CONTENT TYPE	LAYOUT	EXAMPLE HEADLINE
New collection	Large outfit photo, small logo, restrained text.	“Meet the new collection.”
Services	Ivory background, clear service list, one tailoring detail.	“Made to fit your style.”
Craftsmanship	Close-up of stitching or fabric; short caption.	“Every stitch matters.”
Testimonials	Customer quote, subtle monogram, optional photo with permission.	“Loved by you.”
How to order	Numbered steps with plenty of spacing.	“Your MORIELA order, made simple.”
Seasonal / Eid	Editorial modestwear image with seasonal accent colour.	“Eid-worthy elegance.”

Sample bio structure

MORIELA | Women’s Wear & Tailoring
Custom tailoring • Ready-to-wear • Alterations
Modest styles, thoughtfully made.
To order: send a DM / WhatsApp message.

Replace the ordering line with your confirmed contact method and current business details before publishing.

08 | Brand voice and customer experience

The brand voice is polished, warm and direct. Sound like a skilled designer who listens carefully and explains the process clearly.

Do

• Use clear language about fit, fabric, timelines and pricing.
• Celebrate customers and craftsmanship.
• Be welcoming and professional in DMs.
• Set realistic delivery expectations.
• Explain what information is needed to place an order.

Avoid

• Overpromising delivery dates or results.
• Excessive slang in formal price lists and order confirmations.
• Too many emojis, fonts or decorative flourishes.
• Posting customer photos or measurements without permission.

Suggested order journey

01 ENQUIRE	02 CONSULT	03 CONFIRM	04 CREATE	05 DELIVER
Customer shares desired style.	Discuss fabric, fit and measurements.	Confirm quote, terms and timeline.	Provide progress updates as agreed.	Quality-check, package and follow up.

Customer care principle

Consistency is a brand asset: answer enquiries clearly, document order details, confirm agreed timelines and communicate early if anything changes.

09 | Digital experience and UI/UX

Whether MORIELA uses a website, a simple order form or WhatsApp Business, the customer should be able to understand the offer and take the next step without confusion.

Suggested home page structure

SECTION	CONTENT	UX PURPOSE
Hero	Brand name, clear value statement, strong outfit image, “Explore styles” action.	Tell visitors what MORIELA offers immediately.
Services	Custom tailoring, ready-to-wear, alterations.	Help customers find the right service.
Gallery	Real garments, close-up details, collection looks.	Show quality and range.
How to order	Steps, measurement guidance, payment / delivery terms.	Reduce uncertainty before enquiry.
FAQs	Lead times, fittings, fabric, alterations, delivery.	Answer common questions upfront.
Contact	Verified WhatsApp, social links, location / service area.	Make contacting the business easy.

UI rules

- Prioritise mobile layouts; many customers will arrive from social media.
- Use readable type and strong contrast.
- Keep actions descriptive: “Ask about custom tailoring” is clearer than “Click here.”
- Show prices or explain how quotes are calculated where possible.
- Use real product imagery and accurate garment descriptions.
- Keep forms short and ask only for information needed at that stage.

10 | Rollout plan and handoff

Implement the identity in stages so the brand can look consistent without requiring every asset to be produced at once.

PHASE	PRIORITY DELIVERABLES	DONE WHEN
1. Foundation	Approve logo direction, tagline, colours and fonts.	One consistent visual system is selected.
2. Essentials	Logo exports, social avatar, business card, order / thank-you card.	Every customer-facing channel looks related.
3. Garment identity	Woven labels, size / care labels, hang tags, garment packaging.	Samples are tested on real garments.
4. Digital	Social templates, price list, how-to-order guide, simple landing page.	Customers can understand services and order easily.
5. Review	Check legibility, print quality, customer feedback and consistency.	Corrections are made before larger production runs.

Assets to request from a designer / printer

- Logo files: SVG, PDF, transparent PNG, black and white versions.
- Social templates: editable source file plus PNG exports.
- Print files: PDF with correct dimensions, bleed and colour profile.
- Brand guide: this document plus any final approved logo rules.
- Packaging mockups: review for appearance, then request supplier dielines for production.

Final note

This document is a complete creative and strategic starting kit for MORIELA. The palette, tagline and design choices are proposed recommendations. Confirm final contact details, pricing, service terms, logo artwork and supplier specifications before publishing or printing.
