BRAND GUIDELINES / OCTOBER 2026

02 / BRAND ESSENCE

The finish shapes the space.

From ceilings and floors to artwork and exterior details, Sapentine Interior Decor brings definition to a space.

CONSIDERED SURFACES

POP ceilings, stamped concrete flooring, decorative artwork and parapet work for homes and commercial spaces.

Precise. Grounded. Assured.

03 / MESSAGING

A clear name. A clear purpose.

THE LEAD LINE

A fine finish.
Above and underfoot.

POP ceilings / Floor stamping / Artwork / Parapet

Use the service line wherever a new customer first encounters the brand.

SHORT INTRO

The description

Sapentine Interior Decor specialises in POP ceilings, floor stamping, decorative artwork and parapet work.

ENQUIRY PROMPT

Make the next step easy

Send your location, measurements and a few photos of the space to discuss your project.

04 / LOGO ARCHITECTURE

The signature.

The gold S emblem and the Sapentine name form the core of the visual identity.

Primary arrangement

Emblem left; name right. Keep the name and service description readable before adding decoration.

Brand character

The flowing S brings character to the identity. Its circular frame gives the mark a balanced, recognisable silhouette.

05 / LOGO HANDLING

Space is part of the identity.

Clear space: at least 1/4 of the emblem diameter on every side, measured from the circle.

01

Use the right version

The emblem alone suits an avatar once the full business name is visible nearby. Use the full name for first introductions.

02

Protect legibility

Target at least 64 px for the emblem online; test the full lockup at 240 px wide. For print, proof at actual size before production.

Keep the emblem upright and in proportion. Preserve its gold colour and circular frame. Avoid extra effects and visually busy backgrounds.

06 / COLOUR PALETTE

Brass. Plaster. Stone.

Charcoal

#242624

RGB 36 / 38 / 36

CMYK 5 / 0 / 5 / 85

Warm plaster

#F4F0E8

RGB 244 / 240 / 232

CMYK 0 / 2 / 5 / 4

Brass

#B58A46

RGB 181 / 138 / 70

CMYK 0 / 24 / 61 / 29

Stone

#D7CBBB

RGB 215 / 203 / 187

CMYK 0 / 6 / 13 / 16

White

#FFFFFF

RGB 255 / 255 / 255

CMYK 0 / 0 / 0 / 0

HEX and RGB values guide digital applications. CMYK values are approximate; colour-match printed materials using a physical proof.

07 / COLOUR IN USE

Let the neutrals do the work.

SAPENTINE

POP ceilings & stamped floors

The finishing detail.

Use charcoal text on stone or plaster for practical information.

Starting balance: 60% plaster, 25% charcoal, 10% stone, 5% brass. Adjust for photography rather than forcing every colour into every design.

Body text: charcoal on plaster or white on charcoal. Keep brass to rules, large labels and accents; avoid small brass text on pale backgrounds.

08 / TYPOGRAPHY

Character in the headline. Clarity in the detail.

DejaVu Serif

A fine finish.

Primary display face. Use regular weight, sentence case and generous spacing around it.

DejaVu Sans

POP ceilings / Stamped concrete flooring

Body copy, quotations, service lists and captions. Regular for reading; bold for short labels.

Headline / 36-48 pt

Subhead / 18-24 pt

Body / 11-14 pt

Digital scale: headings 32-56 px; body 16-18 px. Use 1.45-1.6 line spacing for body copy and a clear hierarchy between headings and details.

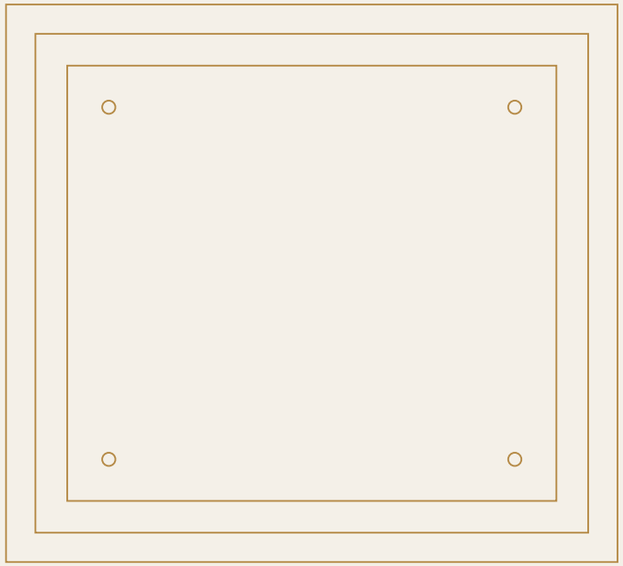

09 / GRAPHIC LANGUAGE

Geometry with a purpose.

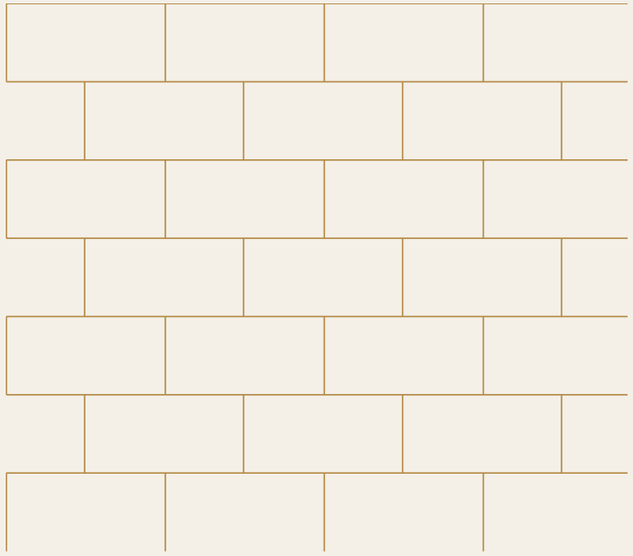

The source

Ceiling recesses, surface edges and the rhythm of a repeated shape.

The line

Fine rectangular frames echo the structure of a ceiling reveal.

The pattern

Offset joints add a quiet reference to stamped floor finishes.

10 / PHOTOGRAPHY

Show the surface. Show the detail.

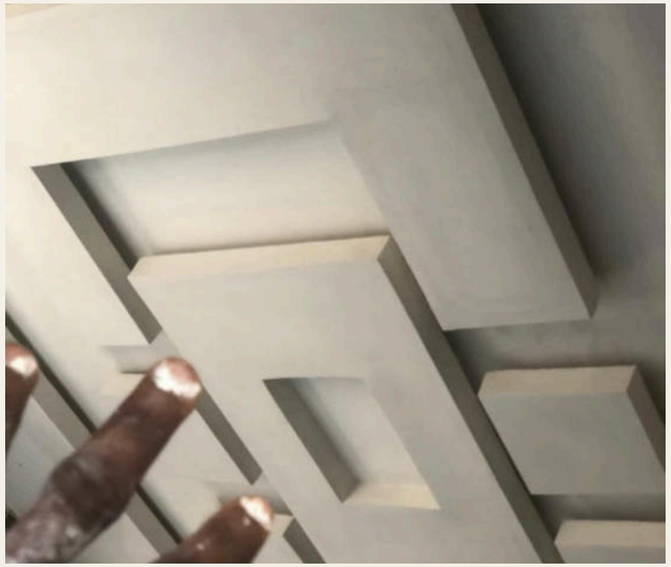

Form & light

Show ceiling geometry clearly, with balanced light and clean edges in view.

Pattern & texture

Capture floor joints, surface texture and colour in natural light.

Craft & process

Include in-progress details to tell the story of the work. Keep captions specific to the stage shown.

11 / BRAND VOICE

Specific words. Believable confidence.

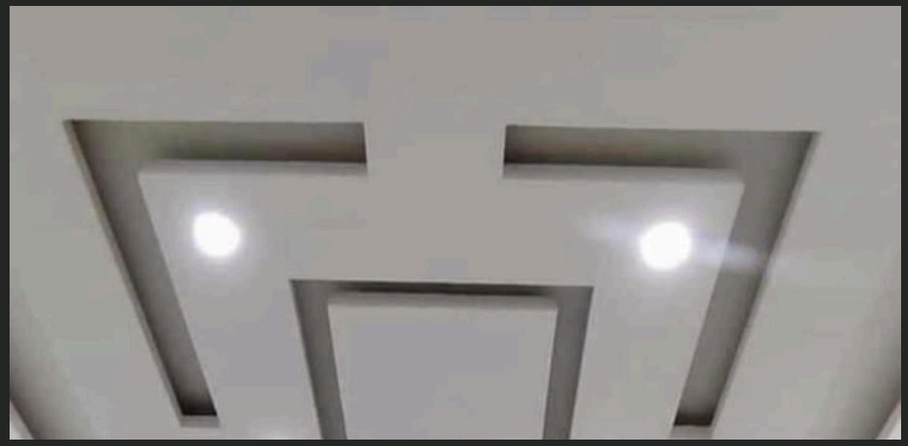

Instead of	Write
We redefine luxury living.	POP ceilings and stamped concrete flooring.
Premium excellence, guaranteed.	See the ceiling edges and surface detail.
DM now for the best prices!	Send photos and measurements for a quote.
We transform every space.	Planning your ceiling or outdoor floor? Let's talk.

Speak with clarity and confidence. Describe the service, show the detail and make the next step easy to understand.

12 / SOCIAL APPLICATIONS

Above. Underfoot. Unmistakably Sapentine.

SAPENTINE / INTERIOR DECOR

Look up.

POP CEILINGS

Planning your ceiling? Send us your space.

SAPENTINE / INTERIOR DECOR

Start underfoot.

STAMPED CONCRETE FLOORING

Send your area and preferred finish for a quote.

13 / STATIONERY

A useful introduction.

A consistent identity across business cards and project correspondence.

Print direction

Matte charcoal with brass foil as an optional accent. Keep foil detailing limited to the emblem or business name.

SAPENTINE

INTERIOR DECOR

PROJECT QUOTATION

Scope first. Cost clearly explained.

- Site assessment & measurements
- Materials, labour & finish specification
- Programme, payment stages & exclusions

14 / ON SITE

Recognisable from a distance.

POP ceilings, floor stamping, artwork & parapet.

Discuss your project

THE EXPERIENCE

Simple, useful, direct

Lead with the service and a strong image. Keep navigation clear and place the enquiry action within easy reach.

THE CONVERSATION

Start with the space

Invite the customer to share their project location, measurements, site photos and preferred start date.

16 / ARTWORK

A wall with something to say.

DECORATIVE ARTWORK

Give a plain surface a point of interest.

An image, a motif or a framed composition can bring character to a wall. Present the artwork in the context of the space around it.

A useful starting point

A wall photograph, approximate dimensions and a design reference help establish the direction.

17 / PARAPET

A considered edge. Inside and out.

EXTERIOR

Definition in the details.

Parapet profiles and decorative exterior mouldings.

Look at the whole building.

Consider roof edges alongside corners, columns and window surrounds. Use clear photographs to show the profile and its setting.

18 / BRAND AT A GLANCE

A fine finish. Above and underfoot.
