IDENTITY GUIDELINES / CONCEPT EDITION

YOUNG GOLD.

A sharper identity for the people who transform spaces.

PAINTING SERVICES

Interior & Exterior

CREATIVE DIRECTION

One memorable mark. One cohesive brand.

This visual direction builds on the business's existing multicolour house-and-paint-roller identity. The logo in the screenshot is a reference, not a production-ready vector master.

Concept moodboard: illustrative proposals, not final approved brand assets. Contact details shown inside concept imagery are placeholder/illustrative.

SECTION 01 / 12

Brand foundations

The work should speak before the painter does.

Young Gold Painting Services is positioned as a dependable finishing partner for homeowners, landlords, builders and business owners who want beautiful, carefully executed interiors and exteriors.

PROMISE

Spaces that look considered, feel renewed and hold up to everyday life.

PERSONALITY

Skilled · Approachable · Meticulous · Confident · Straightforward

Positioning & audience

Built for the spaces people care about.

Primary audiences: homeowners improving their living spaces; property developers preparing homes for sale or tenancy; small businesses refreshing customer-facing premises; contractors seeking reliable finishing support.

DIFFERENTIATOR

A practical, finish-first service: preparation, clean execution and attention to edges, surfaces and final presentation.

ELEVATOR PITCH

Young Gold helps people transform residential and commercial spaces with professional interior and exterior painting and thoughtful finishing.

SECTION 03 / 12

Identity system

Recognisable at a glance.

The existing Young Gold mark uses a house-like arrangement of bold colour blocks with a central paint roller. Preserve this distinctive concept. Refine its geometry for consistent use rather than replacing the business’s visual history.

PRIMARY LOCKUP

Icon + YOUNG GOLD + PAINTING SERVICES. Keep generous breathing room around the full lockup.

SMALL-SCALE MARK

Use the simplified house-and-roller icon alone for social avatars, favicons and uniform embroidery. Avoid tiny tagline text.

Colour architecture

Colour is the service. Discipline is the brand.

The multicolour mark signals paint choice and transformation. Balance it with a predominantly neutral visual system so the business looks credible rather than chaotic. These are proposed working hex values based on the screenshot, not verified source artwork.

Recommended usage: 55% warm white · 25% ink · 12% gold · 5% blue · 3% green. Flexible guidance, not a hard rule.

CORE

Ink #17191D · Warm White #F8F7F3 · Gold #F5AA18

SUPPORT

Blue #2F3F9D · Green #1EA657 · Mist #E9EAEB

SECTION 05 / 12

Typography

Clear, strong and easy to read.

Use Montserrat for headlines and short statements. Use Inter for paragraphs, quotations, service descriptions and interface copy. Both provide a modern, clean finish across print and digital use.

Aa Bb Cc
123456789

HIERARCHY

Display: Montserrat ExtraBold 56–72px · H1: Montserrat Bold 36–48px · H2: Montserrat SemiBold 24–30px

BODY

Inter Regular 15–18px · Buttons: Inter SemiBold 14–16px · Labels: Inter Bold 11–12px uppercase with tracking.

Voice & messaging

Speak like a craftsperson, not a billboard.

Be specific, human and grounded in outcomes. Talk about surface preparation, neat lines, durable results and the difference a well-finished space makes. Avoid exaggerated promises and generic luxury language.

More than paint.
A better space.

BRAND LINE

More than paint. A better space.

EXAMPLE COPY

“Your walls deserve a proper finish.” · “Fresh colour. Careful hands.” · “Interior and exterior painting, handled with care.”

Services & offers

Organise the work so clients can choose.

Present services as clearly defined categories. Only advertise offerings the business actually delivers; confirm special finishes, consultation and commercial capacity before publication.

SERVICE MENU

Interior painting · Exterior painting · Repainting and refreshes · Residential projects · Commercial projects (subject to confirmation)

ENQUIRY CTA

Tell us about your space. Share your location, property type, approximate area, photos and desired timeline for a tailored quote.

SECTION 08 / 12

Photography & content

Real work is the strongest proof.

Prioritise bright, accurate project photography. Show wide room views, close-ups of edges and finishes, in-progress preparation, and matched before/after images taken from the same angle. Obtain permission before featuring client properties.

SHOT LIST

1. Finished wide shot 2. Detail of edges 3. Painter at work 4. Before/after 5. Materials and preparation

SOCIAL MIX

40% completed projects · 25% process · 20% educational tips · 15% client stories and service invitations.

SECTION 09 / 12

Digital experience

Make it effortless to request a quote.

A mobile-first website should communicate the work immediately, show real projects, establish trust and guide visitors toward an enquiry without unnecessary steps.

SITE MAP

Home · Services · Projects · About · FAQs · Contact / Request a Quote

HOMEPAGE FLOW

Hero with finished-project photo → trust points → service cards → before/after gallery → process → testimonials (verified only) → enquiry form.

Social & advertising

One identity, every touchpoint.

Use a consistent profile name, brand avatar, recognisable cover image and repeatable content templates. Do not invent customer reviews, years of experience or project counts.

BIO DRAFT

Young Gold Painting Services | Interior & exterior painting | Clean finishes for homes and businesses | Message us for a quote.

POST TEMPLATE

Hook: “A fresh finish changes everything.” → real project image → one specific job detail → CTA: “Send a photo of your space for an enquiry.”

Print & field applications

Look professional on site.

Workwear, site banners, business cards and vehicle graphics should use the icon and clear contact information. Visibility from a distance matters more than decorative complexity.

UNIFORM

Dark polo with full-colour chest logo; high-visibility vest with simplified one-colour mark where required.

SIGNAGE

Large YOUNG GOLD wordmark · Interior & Exterior Painting · Contact number (verify before printing) · minimal service icons.

SECTION 12 / 12

Governance & rollout

Consistency is a system.

Store the master vector logo, single-colour versions, colour specifications, typefaces, approved templates and project photography in a shared brand folder.

DO

Use consistent logo proportions; maintain high contrast; use real project imagery; proofread every printed number and handle.

DON’T

Stretch the logo; use gradients behind small text; add unverified testimonials; crowd layouts; rely on low-resolution screenshots for production.

FINAL CHECKLIST

Ready to make it real.

Before production, confirm the official business name, preferred public contact details, social handles, full-resolution logo artwork, actual services and approved portfolio photographs.

Then rebuild the approved logo as vector files (SVG, PDF, EPS), create editable social templates, prepare business cards and uniforms, and launch a simple mobile-first portfolio with a prominent enquiry button.

GOOD WORK.
GREAT FINISH.
